

IT Specialist / Software Developer at SCIPRIOS GmbH

IT Specialist (m/f/d) | Fürth, DE

Do you want to work in a fun, smart and dynamic environment where you are challenged, rewarded AND inspired? Our laboratory robots, measurement equipment and pilot production facilities enable researchers around the world to accelerate the development of key technologies for the energy transition - from photovoltaics to fuel cells and batteries.

About this role

As an IT Specialist, you will be part of a small, autonomous team working with dedicated people in a product-oriented way. If you are a passionate and collaborative person who wants to showcase your technical skills, this could be the perfect role for you.

Areas of responsibility:

- In our team of developers and technology engineers, you will work on exciting and international projects for customers in the scientific field.
- You support our system development department in the expansion of test automation or you work in an agile DevOps team as a software developer.
- You will make a valuable contribution in all phases of software development from requirements analysis, design and implementation to quality assurance.

Competence and Skills:

- IT specialist (application development / system integration); or completed studies in the field of computer science, electrical engineering / information technology
- Good knowledge of a scripting language (preferably Python, Labview)
- Good knowledge of an object-oriented programming language (e.g. Java, C++, C#)
- Good knowledge of SQL and databases (Oracle, PostgreSQL or MS SQL)
- Practical experience with network technologies, web applications and knowledge of common development methods and software tests
- Independent, structured and autonomous way of working
- High quality standards, ability to work in a team, communication skills and flexibility
- Enjoy software development, teamwork and interesting challenges

Why SCIPRIOS?

We are a great place to work! SCIPRIOS offers an ideal environment for professional development and growth opportunities. We offer many benefits such as:

- Permanent employment contract with flexible working hours and a competitive salary
- Christmas bonus and 30 days vacation

-Flat hierarchies with a friendly team of highly qualified and dedicated specialists and much more!
